None of them able to attend.  Slack is used by Climate of Collaboration group and Hannah aware of it.  Some of group use facebook and others do not want to.  Group unable to agree how to proceed.  Would like comparison of features of Slack versus Mobilise ie ease of use, cost etc for internal communications.  Need to find suitable method for internal and external comms.</p> <p><b>External links</b> MCA and Menston .org Who to take on?</p> <p><b>Publicity</b>  Marilyn gave info on possible funding for community groups from BMDC – maybe consider a postcard about our group to go out to whole village.  Chris to take on funding application and design of card.  If funds granted, can make use of MCA bank account – Jon Gadd.</p> <p><b>Climate of collaboration event: on 19.6.19:</b>  Goodith and Hannah attended. Lots of enthusiasm – people come from wide area. Lot of shared resources.  Suggested that we need to pin down what we want to do!  Brief discussion on visions, dreaming the impossible dream and films.  Is there a date for another meeting?</p> <p><b>Mass Lobby on 26.6.19 plus networking information</b>  Marilyn and Roger attended but MP not interested – UK is leading the way!  Met up with Hope for the Future contact and suggested joint working on how to work with local authorities. This from Julia:  “Hope for the Future could offer your group any or a combination of the following:  - Basic training on how to have good conversations with your councillors  - A tailored strategy on a specific area of policy that you could attempt to persuade your council about e.g. transport, community energy, retrofitting housing  - Accompaniment to a meeting with your councillors (if you want someone to take</p>	<p>AD, RB or DP to provide for next meeting please!</p> <p>CS</p> <p>HB, GW</p>

notes, interject with an outside perspective)  
- Support to run a direct democracy style event where we invite councillors and the local community to discuss ' What does a climate emergency mean for Shipley/Menston?'  
We're in the process of updating the website, but there is a little more information about this project here: <http://www.hfff.org.uk/authority-to-act> “
