

LOW COST TREE PLANTING BY MENSTON VOLUNTEERS

Climate Action Menston is a group of residents who actively volunteer on tree planting projects in the Wharfedale area and who, with help from well established organisations such as the Woodland Trust and BEAT Bradford, can organise tree planting projects to suit local landowners who want to diversify their land.

Planting trees for bees at Neve's Hill, Menston
February 2020

Climate Action Menston can help you plant trees for a variety of purposes:

- To create woodlands
- To create hedgerows
- To mitigate flooding risk
- To provide shelter for grazing animals
- To encourage biodiversity and pollinating insects

The projects are offered at **low or zero cost** (dependent on grants and available subsidies) and are entirely managed and coordinated by our volunteers, for the benefit of local people and the environment. We can also offer after-care services.

We aim to use recycled and reclaimed materials where possible to protect our newly planted trees, to reduce waste and minimise our carbon footprint.

If you'd like to talk to us about possibilities we'd love to hear from you (and there's absolutely no obligation).
